17 March 1952

1. Visited the Pentagon and talked to [REDACTED] in reference to our priorities problem. They believe they can solve it for us and have requested a memo stating the problem, which Jim Garrison is preparing. It should be ready for signature tomorrow.

3. I asked Bill Peel to get in touch with Dr. Chadwell's office and see what assistance O&M can be to them in connection with a reorganization of their files.

4. George Meloon reports that he plans to give [REDACTED] until the first of the month to find another job. He thinks we have enough evidence to warrant her dismissal.

6. Sid also raised the question of what they should do about nine insurance people on loan from [REDACTED] whose contracts expire 12 April. They have been recruiting clerical personnel. I told [REDACTED] that there was no indication that the Director was willing to change his position very much and that we might as well not renew the contracts.

9. I had a talk with [REDACTED], Bill Peel, and [REDACTED] individually, concerning [REDACTED] assignment as Chief, General Services, and Peel's assignment as Chief of O&M, and I am publishing a notice announcing these assignments effective 17 March 1952.
